PORTFOLIO

k-dhanj.github.io/Portfolio-2026/

LANGUAGES

French: Native
Sinhala: Native
English: C1
Spanish: B1

TOOLS

Adobe Creative Cloud
Sketch
Blender · 3ds Max
Figma · ProtoPie · Axure
Fusion 360
HTML/CSS · JavaScript
Python · C · Java · SQL

DESIGN SKILLS

Visual identity
Brand guidelines
Mockups & prototypes
Technical sheets
Drawing

INTERESTS

Boxing · Cooking
Hiking · Cinema · Drawing

PROFILE

Student in a dual degree in Computer Engineering and Global Design at CY Tech / CY École de Design. I combine a design perspective, creative tools and a structured approach to design. My projects bring together user research, visual identity, mockups and technical materials, with close attention to detail and a coherent user experience.

EDUCATION

CY Tech / CY École de Design | 2021-2027
Dual degree in Computer Engineering and Global Design

Ajou University, South Korea | 2026
University exchange semester · GPA 2.90
Courses: Automatic Control and Design · Digital Circuit · Management & Commercialization of Technological Innovation · IT Professional English · Neurobiology

Lycée Molière, Paris | 2018-2021
French general baccalaureate, science focus · European English section

British Council, Paris | 2010-2016
CAE courses · FCE certification

RELEVANT EXPERIENCE AND PROJECTS

Airbus Atlantique · Service design and decision support | 2026

INRAE · Service design and decision support | 2025
Interviews and analysis of barriers to adopting digital tools in agriculture. Designed an intuitive platform to clarify information and support technology choices.

Numix · Immersive experience project | 2024
Designed a career exploration experience combining VR, AR and physical RFID interactions. Researched user needs and structured an immersive journey to explore different professions.

Renault · Automotive design project | 2024
Analysed a dashboard, defined user issues, designed a more intuitive interface and proposed adapted steering-wheel controls and buttons.

Viqthor · Science communication project | 2024
Analysed and explained complex quantum concepts for a non-specialist audience through clear, adapted materials.

Greater Paris Metropolis · Urban development project | 2022
Field research, user interviews and identification of obstacles. Created a mockup to simplify data collection.

UBIK Philippe Starck · Discovery internship | 2017
Supported the design team, observed the creative process and designed a baby bottle for infants.

PROFESSIONAL EXPERIENCE

Four-star hotels · Maison Nabis and Hotellia-pro | 2025-2026
Night reception, breakfast preparation, guest welcome and operational coordination across several four-star hotels.

Viqthor · Design and visual identity internship | 2025 · 4 months
Redesigned the brand identity. Created web interfaces, technical sheets and UI/UX mockups. Developed brand guidelines and improved ergonomics.

STRENGTHS

Visual sensitivity and design culture · Visual and technical materials · Mockups, prototyping and 3D modelling · Research and insight translation into design solutions · Rigour, autonomy and collaboration across disciplines
